

Frequently Asked Questions

BMW E46 2DR 3-Series (2000-2005) Headlight Bezels

1. Where can I get replacement parts?
 - Selective replacement parts can be purchased at www.carboniodirect.com while specific components can be purchased directly from Carbonio.
2. Is the installation reversible?
 - Yes. Installation of Carbonio products is totally reversible and do not require any cutting or modifying of existing factory components. This is particularly useful for leased vehicles that need to be returned as delivered by the factory.
3. How is the carbon manufactured?
 - Carbonio products are manufactured using techniques normally reserved for the aerospace industry. Multiple layers of resin impregnated carbon fabric (pre-preg or sometimes called "dry carbon") and proprietary thermal-barrier composite is vacuum bagged and baked in a pressurized autoclave to yield thin, yet exceptionally strong parts. Once removed from the mold, parts then receive multiple coats of UV resistant urethane clear and are polished to a high luster finish.
4. What warranty does the product carry?
 - All Carbonio products carry our Unlimited Mileage Guarantee. Details of the warranty are available in the 'Policies' section of the website.
